

CelsiusPro
Professional Weather Protection

Frustrated when adverse weather conditions cause cost overruns and cut a hole in your earnings? Now you can take control.

What we do

With CelsiusPro you can professionally protect your business against adverse weather conditions.

Visit us at www.celsiuspro.com, assess your weather risk, tailor your certificate, and get a quote that fits your budget.

You are paid promptly and automatically, without claims of loss having to be made, if your defined weather condition occurs.

Your advantages

- ✓ Protect your business from volatile and adverse weather in just a few clicks.
- ✓ Get paid automatically when bad weather occurs. No need to file a claim.
- ✓ Weather Certificates, transparent and easy.
- ✓ We use data from official weather stations in Europe, North-America and Australia.

Our Weather Certificates

Rain Season - Pays a pre-defined amount for every mm that the cumulative rainfall is above your specified level.

Rain Day - Pays a pre-defined amount for every day that daily rainfall is above your specified level.

Frost Day - Pays a pre-defined amount for every day that daily minimum temperature is below your specified level.

More Weather Certificates, including seasonal, are available on our website: www.celsiuspro.com

Construction Ltd WITHOUT a CelsiusPro Weather Certificate

Construction Ltd is working on a tight schedule for a new project. Beginning of October they enter a phase where they are very weather dependent.

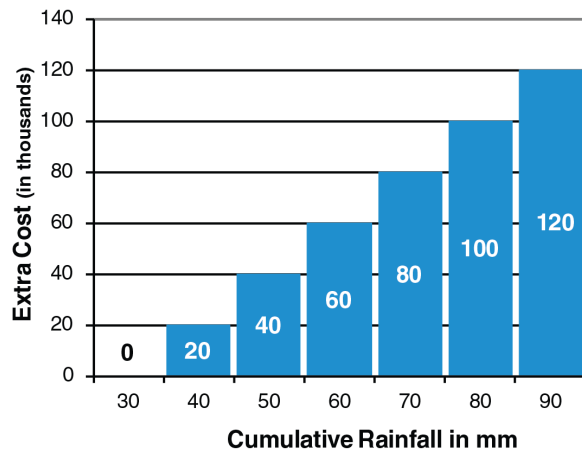

Excessive rainfall during that period would cause cost overruns due to:

- Costs for pumps and extra coverage
- Penalties for delay

Construction Ltd calculates as follows:

- High risk period: October 1st - 9th
- Average rainfall during the period: 30mm
- Maximum rainfall during the period: 90mm
- Protection if rainfall: >40mm
- Maximum extra cost due to rain: €120'000

Riskprofile without protection

The graph shows the variation in extra costs (*in thousands*) given the amount of rainfall during the period.

Without: Best case €0, Worst case €120'000

Construction Ltd WITH a CelsiusPro Weather Certificate

Construction Ltd is concerned about the fact that excessive rain leads to cost overruns and cuts a hole in its earnings. Given the climate variability in recent years, this is not a risk they want to run.

Construction Ltd decides to purchase:

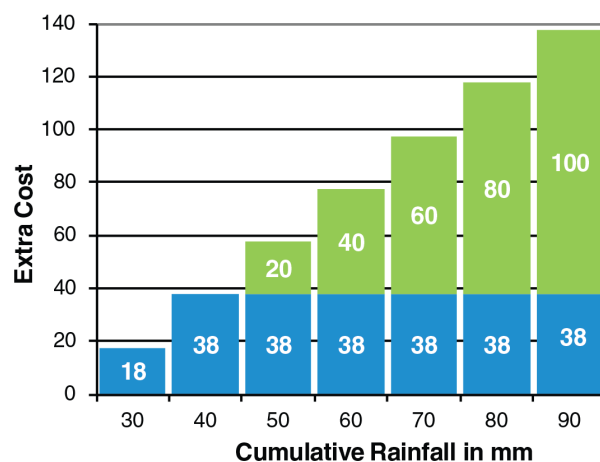

CelsiusPro Rain Season Certificate

Pays a pre-defined amount for every mm that the cumulative rainfall is above your specified level.

Sample parameters:

- Period: October 1st - 9th
- Weather Station: Amsterdam-Schiphol
- Threshold: >40mm
- Payout per mm: €2'000
- Maximum payout: €100'000
- Premium: €17'500

Risk profile with protection

The graph shows the variation in extra costs (*in thousands*) given the amount of rainfall. Costs are increased by the premium and decreased by the payout (*green*).

With: Best case €17'500, Worst case €38'000
